## SKILLS

### • Computer

Microsoft office

Front end development

JavaScript

HTML & CSS

PHP

SQL

Oracle

### • Language

Arabic (Mother tongue)

English

## EDUCATION

I am a student in New Cairo University Technology, specialized In the Information Technology (IT) field.

## EXPERIENC

### Savola Foods Company

July 2022 – September 2022

I worked on a project to automate the marketing budget process. This involved specifying a budget, controlling it with a budget control form, and generating purchase orders and purchase requests automatically.

### PS Solution

August 2023 – October 2023

I am Learning and work with the company in Mobile development using React Native. I am working as a Front-End Developer.

## PROJECTS

In my second year, I worked on the "Duck's Row" web application project with my team. It is an entertainment-related project. It takes the user's budget and recommends places in Giza that match his budget and filters. He can also plan his day and save it for later use.

## CERTIFICATION

web-Development-Challenger-Certificate EGFWD: **March 2022**

Internship from Savola Foods: **July 2022 – September 2022**
